

Your lawn treatment service during Covid-19

All Lawn Master outlets are now operating and will complete your treatments as planned. Your treatment date will remain the same unless you hear from us.

Lawn Master is pleased to offer our lawn treatment service with a 'contactless experience'.

For the safety and comfort of our customers and operatives, we continue to ask that you, your family and your pets stay inside your property for the duration of our visit.

For your safety and ours;

- There will only be one person in our vehicles
- Our operatives wear gloves and change them before going to each household
- Our vehicles all have hand-washing facilities on-board and our operatives wash or sanitise their hands after visiting each property
- Our operatives are now able to access customers' lawns through their property where required. If you would prefer our operatives not to, please let them know.
- Payment can be made by bank transfer or by cheque. Some outlets can take card payments over the phone – please check with your local office. If cash is your only means of payment, please let your operative know and place it on your doorstep before they leave.

Your local Lawn Master is always happy to discuss any aspect of your lawn and our services with you. Please feel free to ask any questions when they call.

On behalf of the Head Office team and your local operatives, stay well, and thank you for choosing Lawn Master.
